

I am concerned about the discussion to change the way FM radio is heard in my community. There is only one radio station my dial is always turned to, K-LOVE. K-LOVE is encouraging and uplifting as I travel in my car during the day, as I clean my house, or just spending time with friends. If K-LOVE were taken off the air, many people would not be able to listen to positive encouraging music and uplifting words. This radio station is helpful to adults as well as children and encourages positive living even in a chaotic world. Please do not make the decision to remove this radio station from my community. Thank you for hearing my request.
